A-level Chemistry

Year 12 into Year 13 Summer Independent Learning

Resources for this work will be provided in lessons during wc 26th June

This work is divided into main sections

- Review of Core Topics
- Review of Key Knowledge from Year 12
- Folder organisation

You should complete this work in full and bring it to your first Chemistry lesson of Year 13

Review of Core Topics

Amount of Substance

- You should attempt without your notes first. Then change colours of pen and use your notes to complete the bits that you struggled with.
- •

•

Folder Organisation

You should have a single folder for Chemistry that you bring to every lesson. Reorganise this folder so that it contains the following work as outlined below.

Section 1 Current and Recent Topics

- Aldehydes, Ketones and Optical Isomerism
 - o Notes
 - o Any work that you completed in lesson
 - o Exam question booklet
- Organic Analysis
